CSE 102 - Introduction to Computer Science & Software Engineering

Spring 2023

Instructor: Kaylynn Borror

Contact: borrorkn@miamioh.edu (mailto:borrorkn@miamioh.edu)

Office: 103 Benton Hall

Office Hours:

Mondays 11:30am - 1:30pm

Tuesdays 2:45pm - 3:30pm

By Appointment (https://calendar.google.com/calendar/u/0?cid=Ym9ycm9ya25AbWlhbWlvaC5lZHU)

(Knock on the office door -- if I'm in there then you'll see my head pop up from one of the cubicles)

Class Sessions:

Section	Lecture Times	Room
A, B	Monday & Wednesday (8:30am - 9:25am)	158 Hughes Lab
C, D	Monday & Wednesday (10:05am - 11am)	322 McGuffey Hall

Lab Sessions:

Section	Lab Time	Room
A	Thursday (8am - 9:50am)	009 Benton Hall
B	Friday (8am - 9:50am)	024 Benton Hall
C	Thursday (10:05am - 11:55am)	016 Benton Hall
D	Friday (10:05am - 11:55am)	024 Benton Hall

Description:

This course introduces students to the computer science and software engineering disciplines. The course focuses on various computing and software design principles and tools used in the profession. Students will be able to model, implement, and test these principles via projects required throughout the course. This course is open to all majors. Credit will be given for only one of CPB 102, CSE 102, ECE 102, MME 102, CEC 102.

Class Attendance Policy:

The Miami University Policy Library (https://miamioh.edu/policy-library/students/undergraduate/academic-regulations/class-attendance.html) states that attendance for all classes is mandatory. Based on your section, you must be present for all lectures and labs as labeled in this syllabus.

Important Dates:

Mon Jan 23	First day of class
Thu Feb 9	Last day to drop course with no grade

Mar 9 - 10	**Midterm Exam**
Mar 20 - 26	Spring Break
Mon Apr 3	Last day to withdraw from course (course grade will be “W”)
Fri May 5	Last day of classes
May 8 - 12	**Final Exams**

Course Webpage & Communication:

All course content will be posted on Canvas in the ‘Modules’ tab. We will use Canvas for all assignment submissions, as well as for the use of grading and other means of communication. **Important class information will be given in the form of Canvas Announcements. You should ensure that your settings enable you to receive course announcements directly to your Miami email address so that you are immediately notified of any updates.**

Course Technology:

For this course, you should have access to a device that you can at least connect to the internet and type on (e.g., a laptop, iPad with keyboard, etc.) for in-class activities. Part of this course takes place in a computer lab, while the other part takes place in a lecture hall. You are encouraged to use the machines in the labs during lab days, but not required. Any software you are expected to use will be communicated in assignments with installation instructions provided if required.

Grading Scale:

A+	(100 - 97]	C+	(80 - 77]
A	(97 - 90]	C	(77 - 70]
B+	(90 - 87]	D+	(70 - 67]
B	(87 -80]	D	(67 - 60]
		F	Less than 60

Assignment Weighs:

Deliverables	Total
Class/Lab Activities	50%
Presentation Project	15%
Midterm Exam	15%
Final Exam	20%
Total	**100%**

Your one lowest lab activity score will be dropped from your final grade **so long as you attempt the activity. If you fail to turn in the activity and/or receive a 0, it will not be dropped from your final grade.

Late Work Policy

Life happens, sometimes things don’t get done on time. In industry, if you have a deadline, then you need to meet it or face disciplinary action, perhaps even get fired from your job if serious enough. **In this class, you have one ‘freebee’ for turning in a lab activity late.** In the case that you need to turn in an activity late, email your

instructor and you will be given a new due date for full credit.

Any other missing work will be unaccepted except for on a case-by-case basis.

Tentative Course Schedule

Week	Dates	Topic	
1	Jan 23 - 27	Intro to CompSci and Computers	
2	Jan 30 - Feb 3	Binary & Hexadecimal, Logic Gates	
3	Feb 6 - 10	vi[m] and Intro to Python	
4	Feb 13 - 17	Python II (Conditionals)	
5	Feb 20 - 24	Python III (Loops)	
6	Feb 27 - Mar 3	Git, Networks, and Servers (ssh)	
7	Mar 6 - 10	HTML, CSS	Midterm Exam
8	Mar 13 - 17	JavaScript	
9	Mar 20 - 24	🌸🌷🌼	Spring Break
10	Mar 27 - 31	JQuery and other Frameworks/Libraries	
11	Apr 3 - 7	Intro to Machine Learning and Databases	Presentations Introduced
12	Apr 10 - 14	Software Engineering	
13	Apr 17 - 21	Presentations	
14	Apr 24 - 28	Presentations (cont.) and Intro to Ethics	
15	May 1 - 5	Review	
16	May 8 - May 12	Final Exam	

**Your instructor reserves the right to make changes to this schedule at any time based on progression of the class

Notices and Resources:

Miami University Learning Community

Miami University is committed to fostering a supportive learning environment for all students irrespective of individual differences in gender, race, national origin, religion, handicapping condition, sexual preference, or age. Students should expect, and help create a supportive learning environment free from all forms of prejudice. Disparaging comments, sexist or racist humor, or questioning the academic commitment of students based upon these individual differences undermines our learning community. If such behaviors occur in class, please seek the assistance of your instructor or department chair.

Copyright Disclaimer

Course materials provided to you, including presentations, tests, outlines, and similar materials, are copyright protected by the faculty member(s) teaching this course. You may make copies of course materials solely for your own use. You may not copy, reproduce, or electronically transmit any course materials to any person or company for commercial or other purposes without the faculty member's express permission. Violation of this prohibition may subject the student to discipline/suspension/dismissal under Miami's Code of Student Conduct or Academic Integrity Policy. The first person to email me mentioning this clause will win a small prize.

Disability Services

If you are a student with a physical, learning, medical and/or psychiatric disability and feel that you may need a reasonable accommodation to fulfill the essential functions of the course that are listed in this syllabus, you are encouraged to contact the Miller Center for Student Disability Services at 529-1541 (V/TTY), located in the Shriver Center, Room 304.

If you have an accommodation you think you will not need to use for this course, request it anyway. We cannot honor accommodation requests until they have gone through Student Disability Services.

Resources and Support for Students

As an instructor, I have a **duty to report** (https://www.miamioh.edu/policy-library/employees/general-employment/non-discrimination/duty-to-report.html) . This means I am required to promptly report to the Deputy Title IX Coordinator (**titleix@miamioh.edu** (mailto:titleix@miamioh.edu)) any information a student shares with me regarding harassment, discrimination, sexual misconduct and interpersonal violence, or retaliation. **A report does not initiate an investigation. It engages a discussion of your resources, supportive measures, and options available.** If students want to speak with someone confidentially, the following resources are available on and off campus:

- **Student Health Services** (https://gnldr.online/tracker/click?redirect=https%3A%2F%2Fmiamioh.edu%2Fstudent-life%2Fstudent-health-service%2Findex.html&dID=1578667353841&linkName=Student%20Health%20Services) , **(513) 529-3000** (https://www.google.com/search?q=Miami+University+Student+Health&rlz=1C1GCEB_enUS814US814&oq=Miami+University+Student+Health&aqs=chrome..69i57j46i39i175i199j0l3j69i60l2j69i61.5685j8#)
- **Student Counseling Services** (https://gnldr.online/tracker/click?redirect=https%3A%2F%2Fmiamioh.edu%2Fstudent-life%2Fstudent-counseling-service%2F&dID=1578667353841&linkName=Student%20Counseling%20Services) , **(513) 529-4634** (https://www.google.com/search?rlz=1C1GCEB_enUS814US814&sxsrf=ALeKk02sACQS4DV0liKgWpTJGcUqvNjG1Q%3A1603376956794&ei=PJeRX8z8L4iPtAaSgpioDQ&q=Miami+University+Studen ECaABwAngAgAFbiAH_CpIBAjE4mAEAoAEBqgEHZ3dzLXdpesgBCMABAQ&sclient=psy-ab&ved=0ahUKEwjMis3PtMjsAhWIB80KHRIBBtUQ4dUDCA0&uact=5#)
- Women Helping Women (WHW) Sexual and Interpersonal Violence Support Specialists are available to support all students and can be contacted by emailing mu@womenhelpingwomen.org. As well as calling/texting 513-846-8402 between 9AM-5PM. The 24-hour hotline is 513-381-5610. WHW supports ALL survivors of dating/domestic violence, sexual assault, and stalking, regardless of gender identity or sexual orientation.

Speaking with a confidential resource person does not preclude students from making a formal report to the University if and when they are ready.

https://miamioh.edu/diversity-inclusion/programs-resources/report-incident/index.html (https://miamioh.edu/diversity-inclusion/programs-resources/report-incident/index.html)

For more information, please visit **https://miamioh.edu/campus-safety/sexual-assault/** (https://miamioh.edu/campus-safety/sexual-assault/) and **https://www.miamioh.edu/diversity-inclusion/oeeo/index.html** (https://www.miamioh.edu/diversity-inclusion/oeeo/index.html) .

Academic Integrity

Homework projects are intended to be individual assignments unless mentioned otherwise. This does not mean that you cannot discuss the problems at a "high level", but it does mean that you should not share code. Here are some guidelines that will help you:

- Assignments should be solved using the specific techniques and algorithms you have been learning in class. Don't search for solutions online because: you won't learn the right concepts, your code will likely not work as specified, and this is considered a violation of the **Academic Integrity Policy** (http://miamioh.edu/cec/academics/departments/cse/academics/academic-integrity/index.html) .
- Don't share your code with anyone on homework projects. Don't ask for someone else to share their code. Attempts to copy code and then change it to look slightly different nearly always fail, and lead to students being found responsible for a violation of the **Academic Integrity Policy** (http://miamioh.edu/cec/academics/departments/cse/academics/academic-integrity/index.html) .
- Don't post assignments or solutions to sites like Chegg or CourseHero because that is considered a violation of this course's **Academic Integrity Policy** (http://miamioh.edu/cec/academics/departments/cse/academics/academic-integrity/index.html) . Plus, did you know that Miami's Academic Integrity office has full access to the materials on such sites?
- Don't reuse your old work or someone else's old work for this class, because doing so is considered a violation of the **Academic Integrity Policy** (http://miamioh.edu/cec/academics/departments/cse/academics/academic-integrity/index.html) .
- In the CSE department, the default penalty for a first-time violation of the Academic Integrity policy is: a score of zero for the assignment/exam/quiz *and* a reduction in the student's final grade of a full letter grade (for example, a C- would become a D-).

However...you should work together! You should discuss problems, draw pictures, talk about algorithms, and so on. But that doesn't mean sharing code.

Learning Outcomes: By the end of this course, you should be able to…

1. Communicate effectively about software engineering and computer science topics:
    - Explain fundamental concepts in computer science and software engineering
    - Explain the relationships and differences among computing related disciplines
2. Apply mathematics and quantitative methods to create models of computer science and software engineering problems and find solutions within an engineering or computing discipline
3. Apply basic principles of computer programming
4. Use computer science and software engineering tools
    - Demonstrate a software solution to a specific problem
5. Work effectively in a team
6. Describe the application of professional and ethical responsibility to common career related issues and situations

7. Use computer science and software engineering specific resources for project research
8. Communicate through the use of web sites and oral presentations

Course summary:

Date	Details	Due
Thu, 26 Jan 2023	Lab Activity 1 - System Information and von Neumann Architecture (https://miamioh.instructure.com/courses/188601/assignments/2370045)	due by 23:59
Mon, 30 Jan 2023	Pre-Semester Survey (https://miamioh.instructure.com/courses/188601/assignments/2361817)	due by 23:59
Thu, 2 Feb 2023	Lab Activity 2 - Bits and (Logical) Ends (https://miamioh.instructure.com/courses/188601/assignments/2375237)	due by 23:59
Fri, 10 Feb 2023	Lab Activity 3: Semicolons? Never Heard of 'em (https://miamioh.instructure.com/courses/188601/assignments/2378421)	due by 23:59
Thu, 16 Feb 2023	Lab Activity 4: Coder's First Calculator (https://miamioh.instructure.com/courses/188601/assignments/2381287)	due by 23:59
Thu, 23 Feb 2023	Lab Activity 5: Lists Full of (Fruit) Loops (https://miamioh.instructure.com/courses/188601/assignments/2384435)	due by 23:59
Thu, 2 Mar 2023	Lab Activity 6: <title>HTML Basics</title> (https://miamioh.instructure.com/courses/188601/assignments/2387507)	due by 23:59
Thu, 9 Mar 2023	Midterm Exam (Remotely Proctored) (https://miamioh.instructure.com/courses/188601/assignments/2388279)	due by 9:50
Thu, 16 Mar 2023	Lab Activity 7: All-Thyme Favorite Recipe (https://miamioh.instructure.com/courses/188601/assignments/2394005)	due by 23:59
Thu, 30 Mar 2023	Lab Activity 8: Some Conversion JavaScripts (https://miamioh.instructure.com/courses/188601/assignments/2398130)	due by 23:59
Thu, 6 Apr 2023	Lab Activity 9: Git-ing your Code Backed Up (https://miamioh.instructure.com/courses/188601/assignments/2400409)	due by 23:59
Thu, 13 Apr 2023	Lab Activity 10: This Week's Lab Substitution (Cipher) (https://miamioh.instructure.com/courses/188601/assignments/2410048)	due by 23:59
Sun, 16 Apr 2023	Computing Career Areas Group Presentation (https://miamioh.instructure.com/courses/188601/assignments/2398917)	due by 23:59
Tue, 18 Apr 2023	Group Presentation Peer and Group Review Submission (https://miamioh.instructure.com/courses/188601/assignments/2410989)	due by 23:59
Thu, 20 Apr 2023	Lab Activity 11: Survey for the Dean's Office (https://miamioh.instructure.com/courses/188601/assignments/2411689)	due by 23:59
Thu, 4 May 2023	Lab Activity 12: Wrapping It Up (with a Bow on Top) (https://miamioh.instructure.com/courses/188601/assignments/2419227)	due by 23:59
Tue, 9 May 2023	Proctorio Test Quiz (Remotely Proctored) (https://miamioh.instructure.com/courses/188601/assignments/2417453)	due by 23:59
Wed, 10 May 2023	Final Exam (Remotely Proctored) (https://miamioh.instructure.com/courses/188601/assignments/2417450)	due by 10:00
	Course Evaluations Credit (https://miamioh.instructure.com/courses/188601/assignments/2420294)
