College of Engineering and Computing

DEPARTMENT OF COMPUTER SCIENCE AND SOFTWARE ENGINEERING

CSE 262: Technology, Ethics, and Global Society

About Your Instructor

Kaylynn Borror, M.S.

- Email: borrorkn@miamioh.edu (mailto:borrorkn@miamioh.edu)
- Office: 383 McVey Data Science Building
- Office Hours:
  - Tuesdays/Thursdays 11:30am - 1:00pm
  - or, by appointment (https://calendar.google.com/calendar/u/0?cid=Ym9ycm9ya25AbWlhbWlvaC5lZHU)

Course Description

Overview

Inquiry into a wide range of information technology issues, from moral responsibilities affecting professionals to wider ethical concerns associated with information technology in day-to-day living. Topics include general aspects of ethics; common ethical theories; professional codes of ethics in IT; privacy, security and reliability in using computer systems and the internet; issues and responsibilities in internet usage; legal issues in IT; global perspectives of computing issues; and general problems related to ethical and responsible computing.

Class Sessions

- **Section A** - Tuesday/Thursday **8:30am - 9:50am**, Benton 213
- **Section B** - Monday/Wednesday **8:30am - 9:50am**, Benton 206
- **Section C** - Monday/Wednesday **10:05am - 11:25am**, Benton 206

Prerequisites

ENG 109 or ENG 111, not open to first-year students

Class Format

This class will be a combination of brief lectures, discussions, presentations, guest lectures, in-class activities, homework assignments, and exams. Reading assigned material in advance and actively participating in all aspects of class sessions is critical to achieving learning outcomes.

Student Learning Objectives

By the end of this course, you should be able to:

1. Formulate and defend a position on an ethical question related to technology
2. Describe the main ethical challenges currently posed by technology
3. Describe the results of group discussion on ethical issues as a consensus position or mutually acceptable differences of opinion
4. Analyze a proposed course of action in the context of various cultures, communities, and countries
5. Demonstrate effective oral and written communication methods to explain a position on the social responsibilities of software developers and IT workers

Important Dates

Last Day to Drop a Class Without a Grade	**Thursday, February 15**
Midterm Exam	**Section A: Thursday, March 14** **Section B/C: Wednesday, March 13**
Spring Break	**March 23rd - 31st**
Last Day to Drop a Class With a 'W' Assigned	**Monday, April 8th**
Final Exams	**Section A: Thu, May 16th @ 8am Benton 213** **Section B: Fri, May 17th @ 8am Benton 206** **Section C: Wed, May 15th @ 10:15am Benton 206**

Tentative Schedule

Week	Topic

1	• Session 01: Introduction/Computer Interactions • Session 02: Introduction to Ethics
2	• Session 03: Utilitarian Ethics • Session 04: Trolley Problem
3	• Session 05: Spectrum of Ethics: Introduction, Deontology, and Existentialism • Session 06: Spectrum of Ethics: Egoism and Virtue Ethics
4	• Session 07: Spectrum of Ethics: Ethics of Caring, Communitarianism • Session 08: Team Presentation Formation
5	• Session 09: Privacy • Session 10: TBD
6	• Session 11: TBD • Session 12: John Virden, CISO Visit
7	• Session 13: Ethical Hacking • Session 14: Midterm Exam
8	• Session 15: TBD • Session 16: TBD
9	Spring Break
10	• Session 17: TBD • Session 18: TBD
11	• Session 19: TBD • Session 20: TBD
12	• Session 21: TBD • Session 22: Presentations

13	• Session 23: Presentations • Session 24: Presentations
14	• Session 25: TBD • Session 26: TBD
15	• Session 27: TBD • Session 28: TBD

*** Your instructor reserves the right to make changes to this schedule at any time based on progression of the class or recent events

Required Materials

Textbook

There is no single textbook for this course. There will be some reading assignments from textbooks available for free via Miami's subscription to **O'Reilly Books Online (https://learning.oreilly.com/home/)**, but other prep material will come from other free resources, such as various websites or news articles.

Assignment Descriptions

Prep Work

You will be assigned readings from books or online articles and/or videos or podcasts to prepare you for each session. The Google Slides presentation from the session will also be published in advance. It is important to do this prep work and come to class ready with questions. I will only review the highlights of the prep work during class to allow enough time for the in-class learning activities.

Prep Work Quizzes

There will be short quizzes based on the assigned prep work material. You'll need to submit these quizzes in Canvas **before** your class session begins to get credit. They will be true/false or multiple choice questions. You'll have two attempts at taking each quiz, with the highest of the two scores retained.

In-Class Activities

Class sessions will consist of a combination of brief lectures reviewing the prep work, class discussion, Kahoot quizzes, presentations, and other learning exercises. Some in-class activities will be graded.

Kahoot Challenge

To take attendance, there will be a Kahoot quiz each session based on the prep work assigned for the day, or a technology "fake news" quiz if no prep work has been assigned for the session. These quizzes will not be

graded, but I will keep track of the points everyone earns during the semester and award some extra credit based on the overall average quiz scores:

- The first and second place individual scores across all sections for the semester will receive extra credit
- I'll divide the semester into three parts and everyone in the course section with the highest average Kahoot score during that part will receive some extra credit

A few notes about this:

  - If someone does not participate in the Kahoot quiz, they will be assigned a score of **zero**. This will affect the average of the entire section, so make sure to attend class and participate in the Kahoots, and encourage your classmates to do the same
  - You should use your uniqueID as your name in the Kahoot

- **If you are late for class and miss the attendance Kahoot, it is your responsibility to notify me immediately after class AND follow it up with an email to ensure that you get the "late" attendance grade for the session**

Weekly Review Quizzes

Nearly every week you will have a take-home quiz on the material covered during the previous week. These will be due by midnight on Sunday. They will be true/false or multiple choice. You'll have two attempts at taking each quiz, with the higher of the two scores retained.

Presentations

Teams will be formed for 30-minute presentations, which will be given the weeks of April 17 and 22. Some in-class time will be provided for you to work with your teams, though most of the work on the presentations will be done outside of class.

Exams

There will be two exams in this class: a midterm exam during class time and a final exam. See the Important Dates above for final exam dates and times. The only valid excuses for missing an exam are:

- You have documented medical reasons clearly explaining the reason for missing deadlines. In the case of medical issues, you must meet with me in person, preferably with a doctor's note, and discuss the situation
- You have documented evidence indicating death or funeral in your immediate family (spouse, parents and grandparents, children and grandchildren, brothers and sisters, mother in law and father in law, brothers in law and sisters in law, daughters in law and sons in law)

If you require a makeup exam, you must obtain written (via email) permission from me no later than 24 hours **prior to the test**. Unexcused, missed exams will be recorded with zero points. The exams will be closed book and closed notes.

Final Exam Policy: The University policy for the final exam is that no exam may be administered early except with written permission from the Associate Dean of the division. **This permission is typically not given except under extraordinary circumstances.** Desire to leave town early is not an extraordinary circumstance.

Other Assignments

There will occasionally be writing or other assignments that you will be asked to complete outside of class. This includes one short paper which is required in this course by the department's accreditation agency. You will also do most of the work for your team presentation assignment outside of class.

Grading Information

Determination of Grade

Category	Percentage of Grade
Exams	30%
Presentations	20%
Prep Work Quizzes	12.5%
Review Quizzes	12.5%
Other Assignments	12.5%
Class Participation	12.5%
Total	**100%**

Letter Grade Definitions

Final Grade	Percentage Range
A+	97 to 100%
A	93 to < 97%

A-	90 to < 93%
B+	87 to < 90%
B	83 to < 87%
B-	80 to < 83%
C+	77 to < 80%
C	73 to < 77%
C-	70 to < 73%
D+	67 to < 70%
D	63 to < 67%
D-	60 to < 63%
F	< 60%

Class Participation

Much of what you learn in this class will come from in-class discussion and activities where you can use the concepts we are covering. As a result, class participation is a factor in your final grade. The class participation grade will be based on attendance during scheduled class sections. I will use Kahoot quizzes (see the "Kahoot Challenge" above) to take attendance.

Attending each section is worth 10 points. There are 28 class sessions, so a total of 280 points are possible:

- If you are late to a session and miss the Kahoot quiz, it is your responsibility to talk to me **immediately** after class and follow it up with an email. If you do this, you'll get 7 of the 10 attendance points for the session
- If you cannot make it to class due to illness, car trouble, a job interview, or similar reason I consider valid, **and you let me know in advance**, this is an excused absence and you'll receive 8 of the 10 attendance points for the session
- If you don't show up for class and don't give me a reasonable reason in advance, this is an unexcused absence and you will get 0 of the 10 attendance points for the session. In addition:

    - If you accrue 3 unexcused absences, your total attendance score will be reduced by 80 points
    - If you accrue 4 unexcused absences, your total attendance score will be reduced by 160 points
    - If you accrue 5 or more unexcused absences, you will receive zero for the entire attendance portion of the course grade
- **If you accrue multiple unexcused absences in the first part of the semester, I reserve the right to drop you from the course**

Course Evaluation

To help make sure that this course is effective in helping you learn the subject, there will be multiple opportunities for you to provide anonymous evaluations or suggestions for improving the course.

- Retrospectives: Approximately every two weeks for the first part of the semester, you'll be given the opportunity to provide anonymous feedback via the following three questions:
    - What is interfering with your learning? (Things we should STOP doing)
    - What suggestions do you have to improve your learning? (Things we should START doing)
    - What am I doing that is helping you learn? (Things I should CONTINUE doing)
- At the end of the semester, there will be the normal final course evaluations. If you submit evidence that you did a final course evaluation (not your actual answers, just a copy of the page that shows you did an evaluation), you'll get extra credit

Academic Integrity

The Department of Computer Science and Software Engineering is committed to maintaining strict standards of academic integrity. The department expects each student to understand and comply with the **University's Policy on Academic Integrity (https://www.miamioh.edu/integrity/)** and Student Handbook (**Undergraduate (https://miamioh.edu/policy-library/students/undergraduate/index.html)**, **Graduate (https://miamioh.edu/policy-library/students/graduate/index.html)** student policies).

Students may direct questions regarding academic integrity expectations to their instructor or to the department chair. All work submitted must be original for that class. Submitting the same project for two different classes is grounds for charging a student with academic misconduct unless prior written permission is received from both instructors.

Most of the assignments in this course will not benefit from the usage of generative AI tools such as ChatGPT, Bing, Bard, DALL-E, GitHub Copilot, etc., as a majority of this course is based on participation and personal opinion. Use your own opinions and logical thinking for such activities, not the ones of machines. We will be discussing the ethics of the usage of such generative tools over the course of this class. Any usage of content that is completely passed off as your own will only hurt your own learning and will be considered a violation of academic integrity.

In the CSE department, the penalty for an academic integrity violation is:

- A zero on the assignment in question
- A reduction of one letter in the final course grade

ADA & Students with Disabilities

Miami University is committed to ensuring equal access to students with disabilities. Miami's Office of Student Disability Services (SDS) assists students with determining eligibility for services and accommodation planning. Students who are entitled to disability-related academic adjustments, auxiliary aids, etc., must **register with SDS (https://miamioh.edu/student-life/sds/student-tools/how-to-register/index.html)** to receive accommodations in university courses. Please understand that formal communication from SDS must be presented prior to the coordination of accommodations for this course. For more information, students may contact SDS at (513) 529-1541 or via email at **sds@miamioh.edu (mailto:sds@miamioh.edu)**.

To view the accessibility standards instated by Canvas, follow **this link (https://community.canvaslms.com/t5/Canvas-Basics-Guide/What-are-the-Canvas-accessibility-standards/ta-p/1564)**.

Miscellaneous

Student Responsibilities

According to the Miami University Student Handbook, student responsibilities include:

- Attending class in accordance with University regulations;
- Being attentive during class, and participating constructively in class discussions;
- Doing the work assigned in each course to the best of his or her ability, and submitting it on time;
- Showing respect for instructors and fellow students at all times;
- Abiding by University regulations prohibiting academic misconduct (see Chapter 5 of Part 1 Undergraduate Academic Regulations);
- Endeavoring to ensure that the learning environment is free from all forms of prejudice that negatively influence student learning, such as those based on age, ethnicity, gender, mental or physical impairment, race, religion, sexual orientation, or gender identity.

During class, students must avoid disruptive behavior which can result in the student being removed from class. Disruptive behavior is defined as any behaviors that hamper the ability of instructor to teach or students to learn. Common examples of disruptive behaviors include, but are not limited to:

- Talking when the instructor or others are speaking
- Overt inattentiveness (e.g., sleeping or reading the paper in class)
- Creating excessive noise
- Entering the class late or leaving early
- Interrupting instructor during lecture with irrelevant comments

- Use of cell phones in the classroom
- Use of computing equipment for any purpose other than those pertaining to classroom activities

Attendance

Attendance, as stated in the Miami University Student Handbook, Chapter 9, is required in this class. Below are excerpts from the Student Handbook concerning class attendance:

"*Every student is expected to participate in academically related activities and attend every class session for which the student is duly registered. It is the prerogative of the individual faculty member to set attendance policy for each individual course, and it is the responsibility of the individual faculty member to inform students of that policy in the course syllabus or other written document at the first class meeting of the semester.*"

"*Whenever a student is absent from class to such an extent as to make the student's work inefficient or to impair the morale of the class, the instructor may drop the student. During the first 20 percent of the course no grade will be recorded; after the first 20 percent is completed but before 60 percent of the course is completed, a grade of W will be recorded. After 60 percent of the course is completed, a grade of F will be recorded. The instructor shall notify the student of this action no later than the time he or she notifies the Office of the University Registrar.*"

Here is my class attendance policy:

- I expect you to attend every class unless you have a valid and documented reason to miss (health, religious, intercollegiate athletics, band, other university or class activities)
- It is your responsibility to negotiate specific arrangements with me about any absences. If you miss more than two classes without a valid excuse, I reserve the right to drop you from the course
- If your absence is due to religious reasons or a university activity, you must let me know in advance or it will be counted as an unexcused absence
- In case of illness you should contact me, preferably in advance, but as soon as possible after the session you miss. I reserve the right to request documentation of illness, e.g. from a doctor or the university health center
- In some cases, it may be possible to make up work missed in an absence, but not always. In particular, it will be difficult to make up labs, quizzes, and other in-class work

Note that if you miss an in-class assignment due to an excused absence and it is not able to be done asynchronously (which is usually the case), you will not receive points for the assignment. However, at the end of the semester when I review grades, if you are short of the next grade up due to points missed from an excused absence, I will likely bump you up, so long as your participation is otherwise OK.

Here's a link to **Miami's full policy on attendance (https://miamioh.edu/policy-library/students/undergraduate/academic-regulations/class-attendance.html)** .

Office Hours

I have set office hours during the week to help you with problems relevant to this course. You may drop in to them anytime without making an appointment:

- Tuesday: 11:30am - 1pm
- Thursday: 11:30am - 1pm

If you are unavailable during my office hours, you are welcome to schedule an appointment with me **via Google Calendars (https://calendar.google.com/calendar/u/0?cid=Ym9ycm9ya25AbWlhbWlvaC5lZHU)** to find a reasonable time we are both available for. When scheduling an appointment for office hours, make sure to invite me to the meeting as a guest, otherwise you will be creating a meeting for only yourself and I will not be notified.

Send me an email ahead of time in order to assure that I am available for a time that my calendar states I am free for. I will always answer a Google Calendar invite with a 'Yes' or a 'No', followed with alternate times if applicable. If you did not receive either of these within 24 hours of asking for a meeting with me, feel free to give me an email 'poke', as either it was lost in my inbox or you didn't invite me to the meeting properly.

Email Communication

Email is the best way to get in contact with me, as I'm not in my office very often. I always respond to emails and will try to do so promptly. I have an irregular sleep schedule, so while an email in the evening may occasionally receive a quick response, it shouldn't be expected that an email sent after 5pm will be answered until the next morning.

Duty to Report

As an instructor, I have a **duty to report (https://www.miamioh.edu/policy-library/employees/general-employment/non-discrimination/duty-to-report.html)**. This means I am required to promptly report to the Deputy Title IX Coordinator (**titleix@miamioh.edu (mailto:titleix@miamioh.edu)**) any information a student shares with me regarding harassment, discrimination, sexual misconduct and interpersonal violence, or retaliation. **A report does not initiate an investigation. It engages a discussion of your resources, supportive measures, and options available.** If students want to speak with someone confidentially, the following resources are available on and off campus:

- **Student Health Services (https://www.miamioh.edu/student-life/student-health-service/)**, (513) 529-3000
- **Student Counseling Services (https://miamioh.edu/student-life/student-counseling-service/index.html)**, (513) 529-4634
- Women Helping Women (WHW) Sexual and Interpersonal Violence Support Specialists are available to support all students and can be contacted by emailing **mu@womenhelpingwomen.org (mailto:mu@womenhelpingwomen.org)**. As well as calling/texting 513-846-8402 between 9AM-5PM. The 24-hour hotline is 513-381-5610. WHW supports ALL survivors of dating/domestic violence, sexual assault, and stalking, regardless of gender identity or sexual orientation.

Speaking with a confidential resource person does not preclude students from making a formal report to the University if and when they are ready.

https://miamioh.edu/diversity-inclusion/programs-resources/report-incident/index.html (https://miamioh.edu/diversity-inclusion/programs-resources/report-incident/index.html)

For more information, please visit **https://miamioh.edu/campus-safety/sexual-assault/** **(https://miamioh.edu/campus-safety/sexual-assault/)** and **https://www.miamioh.edu/diversity-inclusion/oeeo/index.html** **(https://www.miamioh.edu/diversity-inclusion/oeeo/index.html)**

Miami University Learning Community

Miami University is committed to fostering a supportive learning environment for all students irrespective of individual differences in gender, race, national origin, religion, handicapping condition, sexual preference, or age. Students should expect, and help create a supportive learning environment free from all forms of prejudice. Disparaging comments, sexist or racist humor, or questioning the academic commitment of students based upon these individual differences undermines our learning community. If such behaviors occur in class, please seek the assistance of your instructor or department chair.

A Final Note

It is my goal and Miami's to see you succeed academically. If you feel that you could use some help, in this course, others, or more generally, please don't hesitate to reach out to me. Here are some other Miami resources you can take advantage of as well:

- **Rinella Learning Center** **(https://miamioh.edu/academic-programs/resources-services/rinella-learning-center/index.html)** , including tutoring services
- **Student Success Center** **(https://www.miamioh.edu/emss/offices/student-success-center/index.html)**
- **Miller Center for Student Disability Services** **(https://miamioh.edu/academic-programs/resources-services/student-disability-services/index.html)**
- **Howe Center for Writing Excellence** **(https://miamioh.edu/howe-center/index.html)**
- **English Language Learner Writing Center** **(https://miamioh.edu/ellwc/)**
- **Student Health Services** **(https://miamioh.edu/student-life/student-health-service/index.html)**
- **Student Counseling Services** **(https://miamioh.edu/student-life/student-counseling-service/index.html)**

See the **Personal Support web page** **(https://miamioh.edu/student-life/student-affairs/care-and-concern/personal-support/index.html)** from the Division of Student Life for links to additional resources.
